Dragontail Classroom

Seven Goblins set to sea looking for a legendary treasure. Unfortunately, Goblins get lost easily. Can you help the crew find their way?

Before they even had a chance to explore the ocean, the goblins got lost on their own ship! Follow the colors of the rainbow to find your way around. Remember what number is associated with each color – it's a clue that will help you to solve future puzzles!

The Goblins are arguing over where to go. They know that X Marks the spot, but which X? If you listen to everyone, maybe you can find out.

Who is who? Follow the speech balloons to find out which goblin said what. You may find that what you've already learned about numbers and colors is useful here. Be on the lookout for clues!

The Goblins finally know where they have to go, but they're having trouble getting there. They have encountered a storm on their way to the island where the treasure is buried. Help them find their way through the waves and lightning clouds to safely reach the land.

EVERY GOBLIN HAS A
SECRET, KEPT IN A CODED
JOURNAL ENTRY - EVEN
ME. LOOK, LISTEN, AND
TRY TO FIND OUT WHAT IS
HIDDEN.

Some clues will not lead to answers until more information is gathered. Solve the puzzles you can, when you can.

Once they made their way through the storm, the Goblins took their boat out to the island, and then followed the first road they found. Where did they end up?

YOU CAN FIND THE TREASURE ON THE MAP, IF YOU LOOK FOR IT, BUT IT'S NOT WHERE WE'RE HEADED. THE REAL TREASURE IS HIDDEN FAR BETTER THAN THAT.

MUHROT IRUYKRE. -YQOVVKX.

The Island has many areas. Once you know where the Goblins ended up, it may be worth finding out where the other roads lead.

Once they get inside, the goblins find seven doors and seven keys. They don't know what to do or where to go, so they stop to eat lunch. While they're resting, maybe you can find which key goes to which door.

ONE OF THE CREW MEMBERS IS A THIEF, SO BE ON THE LOOK OUT! IF YOU KEEP AN EYE OPEN, YOU MAY SEE WHO IT IS, AS WELL AS WHAT IS BEING STOLEN!

- GLMIJ.

Keys aren't just for doors – another meaning of the word 'key' is the solution to decoding an encrypted message.

All of the doors were dead ends except for two. One went down, the other went up. Thinking the treasure might be buried, the goblins went down first.

ACCORDING TO THIS TREASURE MAP,
THERE ARE THREE CHESTS. ONE
CONTAINS GOLD, ONE CONTAINS SILVER,
AND ONE IS EMPTY.

If you know what everyone is saying, it may give you clues to finding out everyone's secret.

The second door led up, where the goblins could see and appreciate the whole island. Suddenly, finding the treasure didn't seem so important.

WE DIDN'T EVEN KNOW WHAT WE
WERE LOOKING FOR WHEN WE
SET OUT, BUT WHATEVER IT WAS,
I THINK WE MIGHT HAVE FOUND
IT.

The Crew doesn't seem to care about the treasure any more. What do you think it was?

Connect each character with the description that matches them, and then with the secret they have. If you go back and look for characters on previous pages and take note of the color associated with them, you may notice a pattern here.

1. President	Tells lies	Is a Pirate
2. Boss	Is the Carpenter	Is Afraid of Heights
3. Commander	Is the Cook	Is Afraid of the Dark
4. Chief	Knows where the treasure is	Can't Read
5. Bigwig	Knows who the thief is	Is a Thief
6. Skipper	Had things stolen	Can't Swim
7. Cap'n	Is the Doctor	Rules over the Goblins

Once you know everyone's secret, you're ready to uncover the treasure! On the opposite page, connect each color to its corresponding number, and then fill in its connected letter. Then, in the grid below, fill in all of the other kinds of treasure we encountered, in number order. Read straight down the middle to get the answer. When you have it, turn to the last page to decode the final message.

WITH OUR JOURNEY OVER, THE GOBLINS LAY BACK FOR SOME WELL EARNED REST. THE CURE FOR CABIN FEVER WASN'T FINDING THE TREASURE, IT WAS LETTING GO AND LETTING YOURSELF JUST BE. IF YOU'RE FEELING COOPED UP OR LOST, SOMETIMES IT CAN HELP TO JUST SLOW DOWN AND LOOK AROUND AT WHERE YOU ARE.

If you know what the treasure is, write it above the following key

ZIQVJWE LQIUWVL

Then, use the letters provided to decode the following message. If you are having trouble, remember – there is a simple process to how the code is constructed. Look for a pattern between the letters in the code and the letter in the hidden message.
