

Special Permission: Administration of Tylenol, Motrin or Generic Substitute

Please sign both forms – one for our office files, one for your child’s classroom

PIC staff may not administer any medication unless we have written instructions from parents/guardians. Sometimes there are situations when a dose of Tylenol (acetaminophen), Motrin (ibuprofen), or Generic Substitute will make your child more comfortable until you are able to come and get him/her. If, after a phone consultation, you would like us to be able to give Tylenol, Motrin or GS, please complete this form.

The staff of The Parent-Infant Center has permission to administer Tylenol (acetaminophen), Motrin (ibuprofen), or a generic substitute) to my/our child _____ in the event that the child has a high fever (101 degrees rectal, or higher) in order to bring down the fever and reduce discomfort until I/we are able to come and get him/her.

Our pediatrician has advised us to give :

Drug _____ Dosage _____

(we must have the drug and an actual dosage listed)

Signed: _____
